

160 LITRE MANHATTAN CURVE WATER BUTT PLANTER

OVERVIEW:

This chic water butt planter is an elegant addition to any garden. The Manhattan 160 litre Curve is a two-in-one planter and water butt, allowing the top part to be planted whilst the lower part collects rain water. Excess water from the planter can also drain to the tank, meaning no water is lost.

DESCRIPTION:

This modern planter is available in a variety of colours and is made from MDPE, a high quality robust material, making the water butt both weather and frost proof.

The sleek Manhattan City Curve water butt planter comes with a 100mm access in the planter bowl which allows the inside to be inspected, cleaned with a hose and also allows backnuts from overflows and diverters to be tightened.

This modern tapered water butt includes a high quality brass tap (3/4" BSP), allowing a watering can to be quickly filled.

FEATURES:

- Large, versatile planting bowl
- Opaque plastic reduces algae/microbial growth
- Rotationally moulded for strength, durability and longevity
- Frost proof

INCLUDES:

- High quality 3/4" BSP brass tap and PTFE tape
- 100mm access cover (unpierced)
- Standard diverter - suitable for 65mm
