

100 LITRE PRESTIGE WATER FENCE PANEL TANK

OVERVIEW:

The Prestige Water Fence Panel Tank has been designed to slot directly into standard existing concrete fence posts.

The tank can be used to as the gravel board or placed on an existing gravel board to raise the tank and allow the tap to be used.

DESCRIPTION:

The simple unique design makes it visually discreet and easy to install. Multiple tanks can be joined together to achieve the desired storage capacity. This tank can form part of an above ground pumped rainwater harvesting system by incorporating a pump to one of the tank outlets.

Alternatively the tanks can form part of a SuDS attenuation system or combined rainwater harvesting - attenuation system.

This tank incorporates two 2" access caps to allow access to the inner tank. There are 8 connection/draw off points to allow flexibility

The 100 litre Prestige Water Fence Panel Tank is manufactured in the UK.

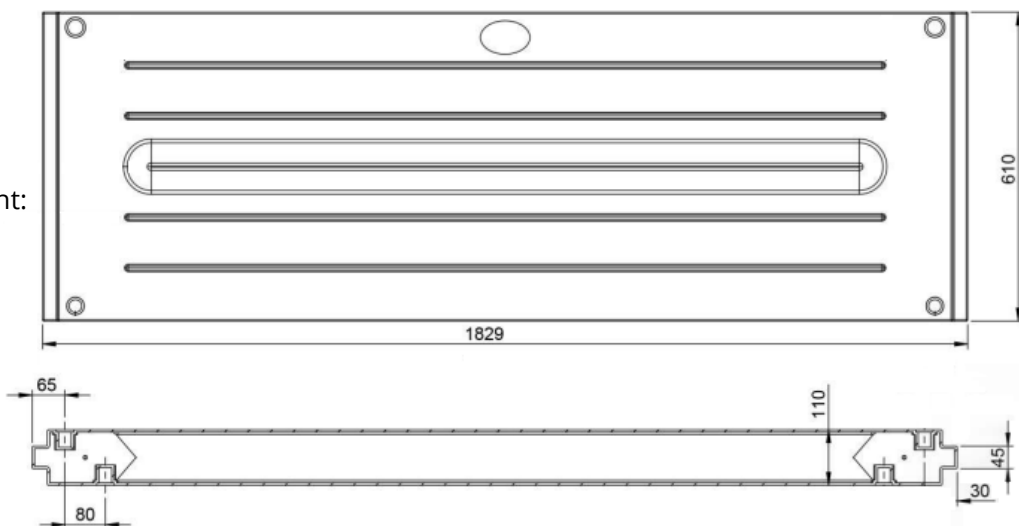

FEATURES:

- Opaque plastic reduces algae/microbial growth
- Rotationally moulded for strength, durability and longevity
- Frost proof
